

SITA CONNECT AT 750+ AIRPORTS

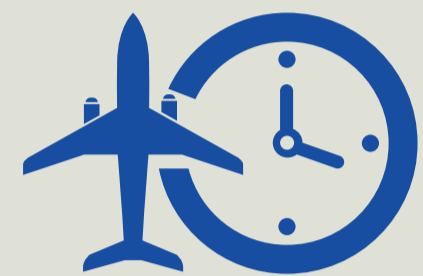

SITA

WORLD CLASS
CONNECTIVITY
FOR AIRLINES

DOES YOUR NETWORK PROVIDER ALLOW YOU TO...

1. MANAGE YOUR CRITICAL BUSINESS OPERATIONS NO MATTER WHAT?

You need assurance that your network will efficiently support your business making **your airport operations run smoothly and your planes depart on time, all day, every day.**

HOW WE HELP YOU

WE UNDERSTAND YOUR BUSINESS.

Being dedicated to the air transport industry, we know how your critical applications work and how they impact your network. **With SITA Connect**, all your connectivity needs are addressed. It enables **flexible and reliable connectivity** to the host and your mission-critical applications.

No.1

SITA is the No.1 air transport network provider.

Resilient infrastructure leveraging SDN.

Get 24/7 global support.

2. ENSURE YOU HAVE HEADQUARTERS-LIKE CONNECTIVITY WHEREVER YOU OPERATE?

HOW WE HELP YOU

USERS GET THE SAME EXPERIENCE FOR BOTH ENTERPRISE AND OPERATIONS APPLICATIONS.

No matter where your users are based: at the airport, in a town office or in a remote office, **with SITA Connect**, you benefit from great connectivity performance at all your sites, **anywhere in the world.**

220 

Unrivalled network footprint in over 220 countries and territories.

750+ 

international destinations can be reached through our extensive network.

13,500 

air transport sites are connected by SITA VPN networks and SITA provides nearly 20,000 IP connections.

3. BE AGILE IN DEPLOYING NEW AND TEMPORARY ROUTES?

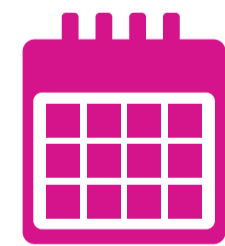

New destinations, even if temporary or with short notice, are often necessary to keep up with **passenger demand and competition.**

HOW WE HELP YOU

WITH SITA CONNECT, YOU BENEFIT FROM A PRE-CONNECTED ECOSYSTEM AT THE AIRPORT.

No matter where you fly, with **SITA's global presence**, best-in-class connectivity applications and unified global support model, **we are best positioned to support the development of your route network.** That means you can enjoy a shorter time to market and open up new routes with agility **in as few as 3 days.**

WITH AIRPORTHUB THE AIRPORT-WIDE SHARED CONNECTIVITY PLATFORM, YOU CAN PROVISION THE NETWORK SERVICE YOU NEED, WHEN YOU NEED IT.

PLUG & PLAY

Plug-and-play infrastructure and connectivity at airports offers **reliable access to VPNs with reduced lead time and no capital investment.** Quickly start connectivity in new destinations through a readily available pre-connected cloud with powerful desktop solutions.

• Redundancy

• Resiliency

• Cost-effectiveness

• Flexibility

AirportHub is pre-connected to all major DCS across the globe.

AirportHub features built-in scalability.

Enjoy **AirportHub** at **600 airports** including 60 with SD-WAN features.

Deploy a **new site in 3 days** thanks to a single connection to the **ATI Cloud.**
