

THE SITA CONNECTED AIRPORT VISION

SITA

COMMUNICATIONS & DATA EXCHANGE, A QUICK
RECAP

750+ airports

equipped with SITA infrastructure

200+ countries

our network and communication services global
coverage

60%

of the air transport community's data exchange
is bridged by SITA

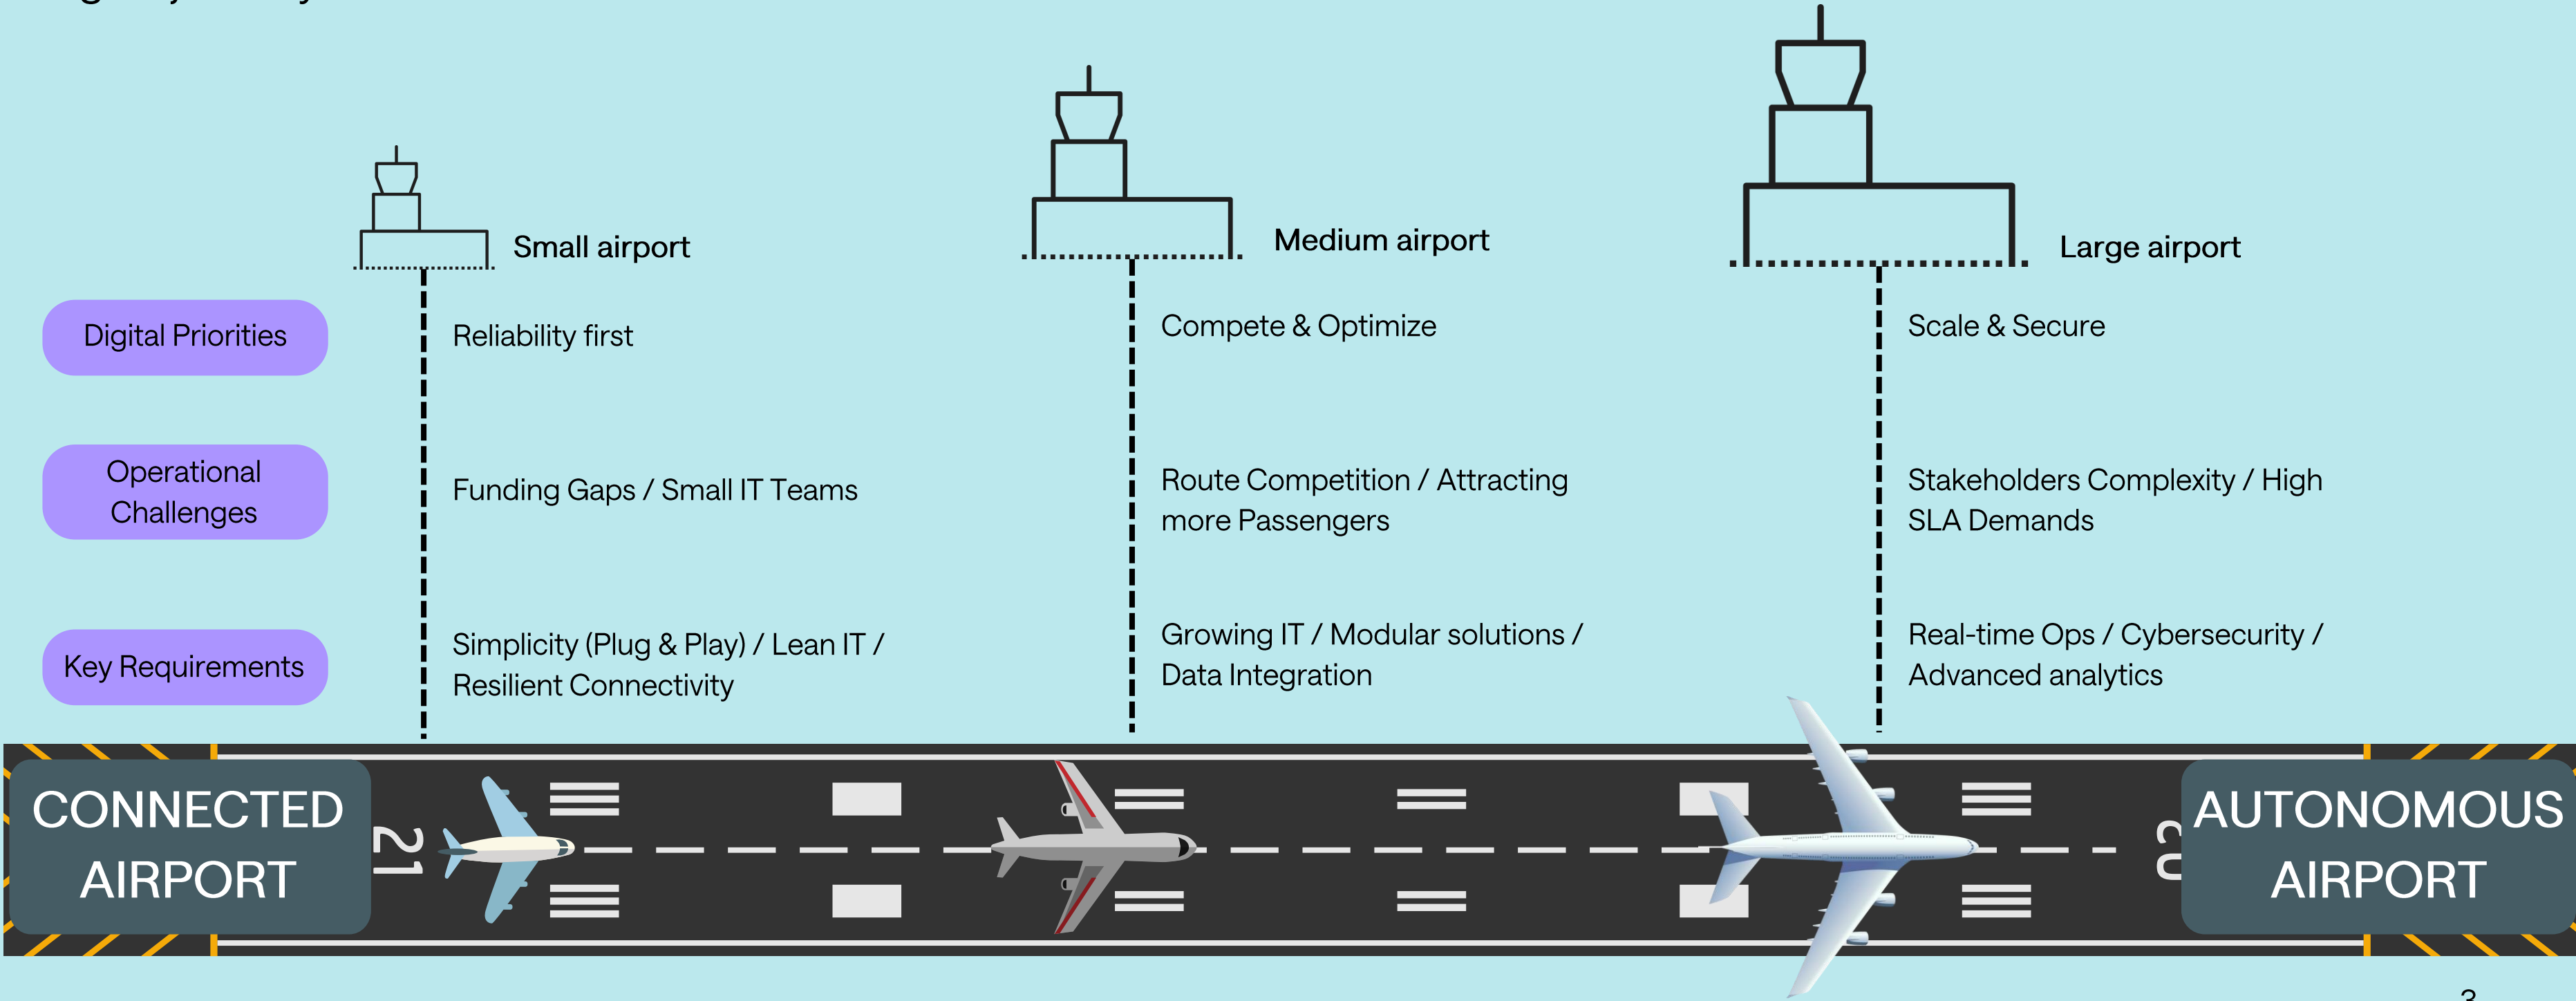

20,000+

applications & professionals connecting to the
SITA Community every day

Airports continue on the Runway to Digital Optimization

We know airports differ in scale and complexity— each one is on a digital journey shaped by its operational needs, resource constraints, and strategic priorities. Flexibility to respond to these challenges is key to support them on this digital journey.

Different Flight Paths, Yet Same Turbulence

50%

have 6+
network tools

35%

of errors are due
to disjointed
tools

45%

of time is spent
troubleshooting

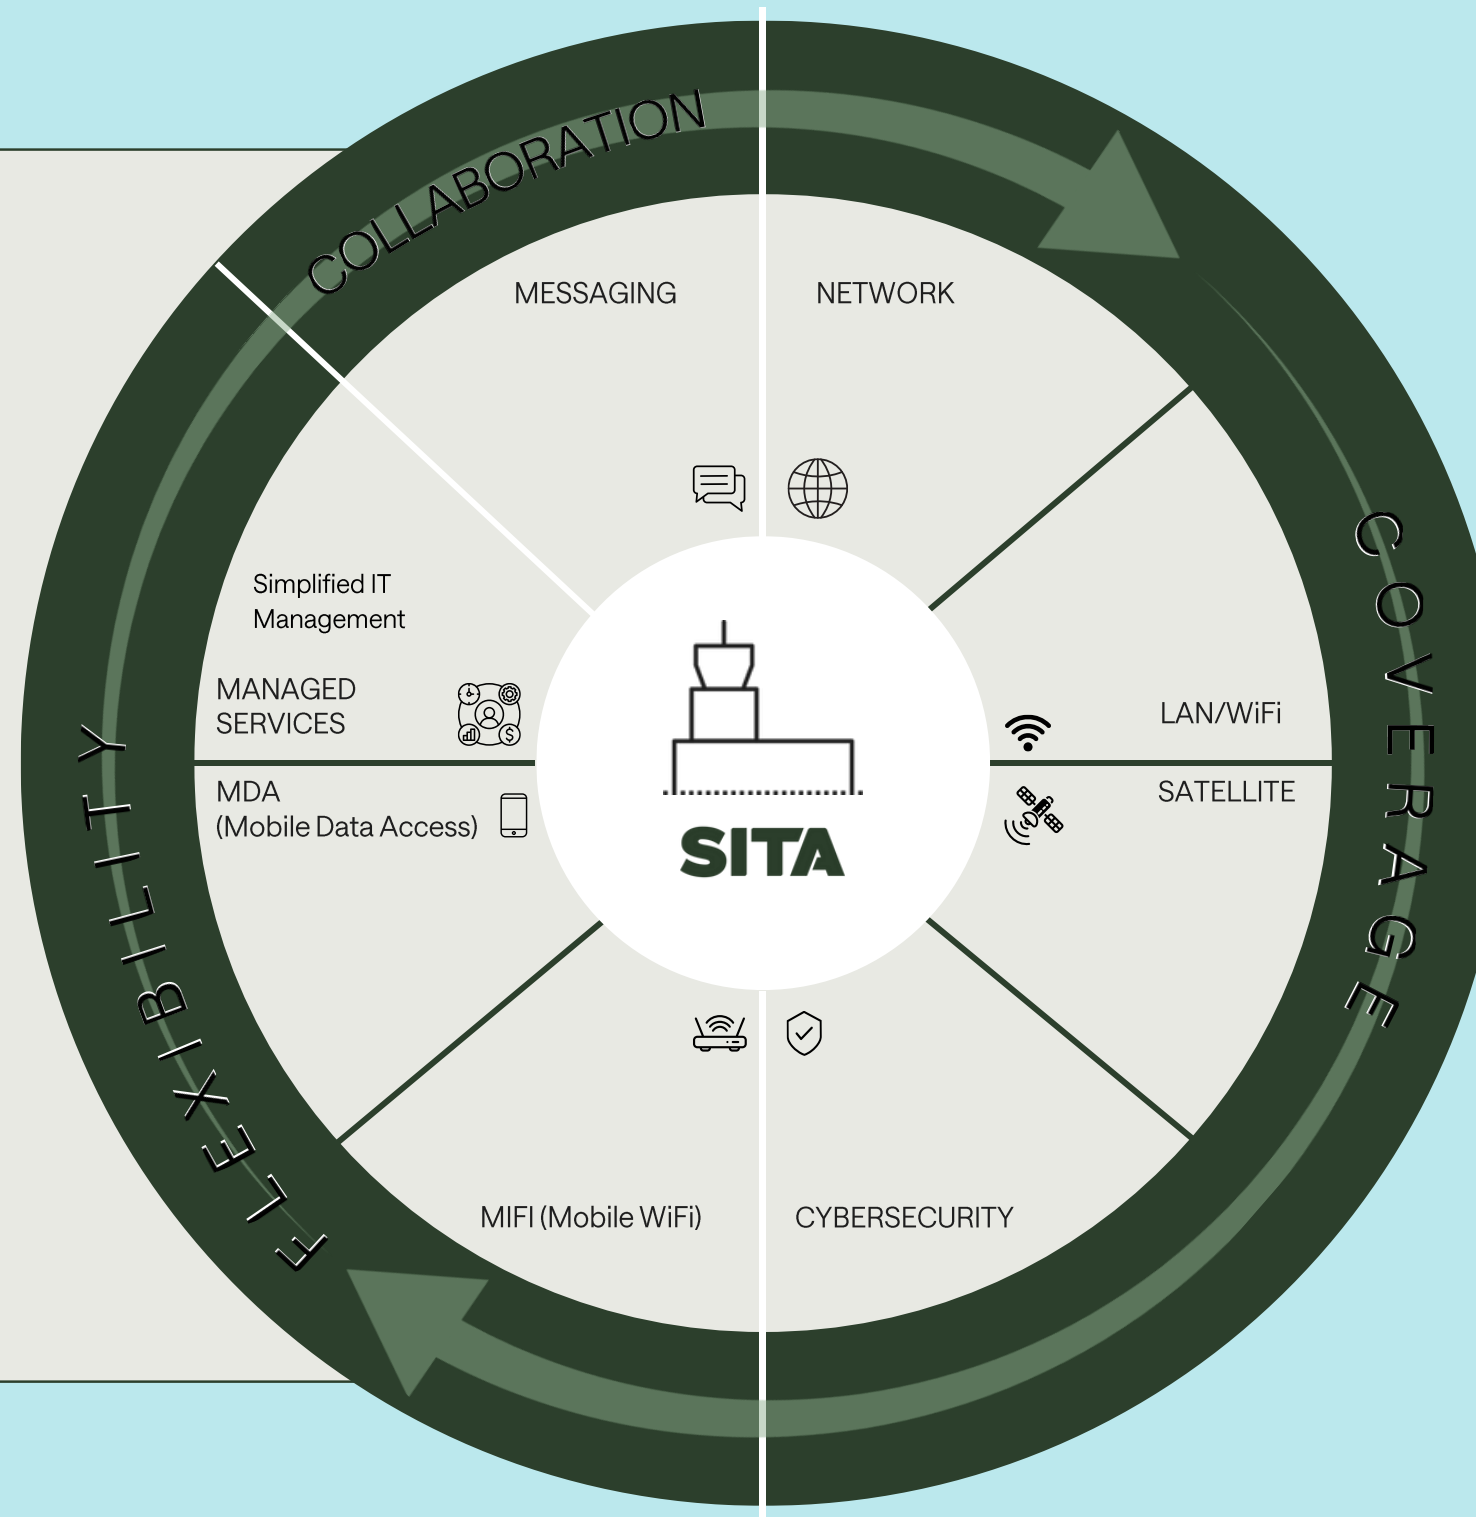

We believe all airports can benefit from a
more integrated IT communications
platform.⁴

Take off today with SITA Unbreakable Connectivity

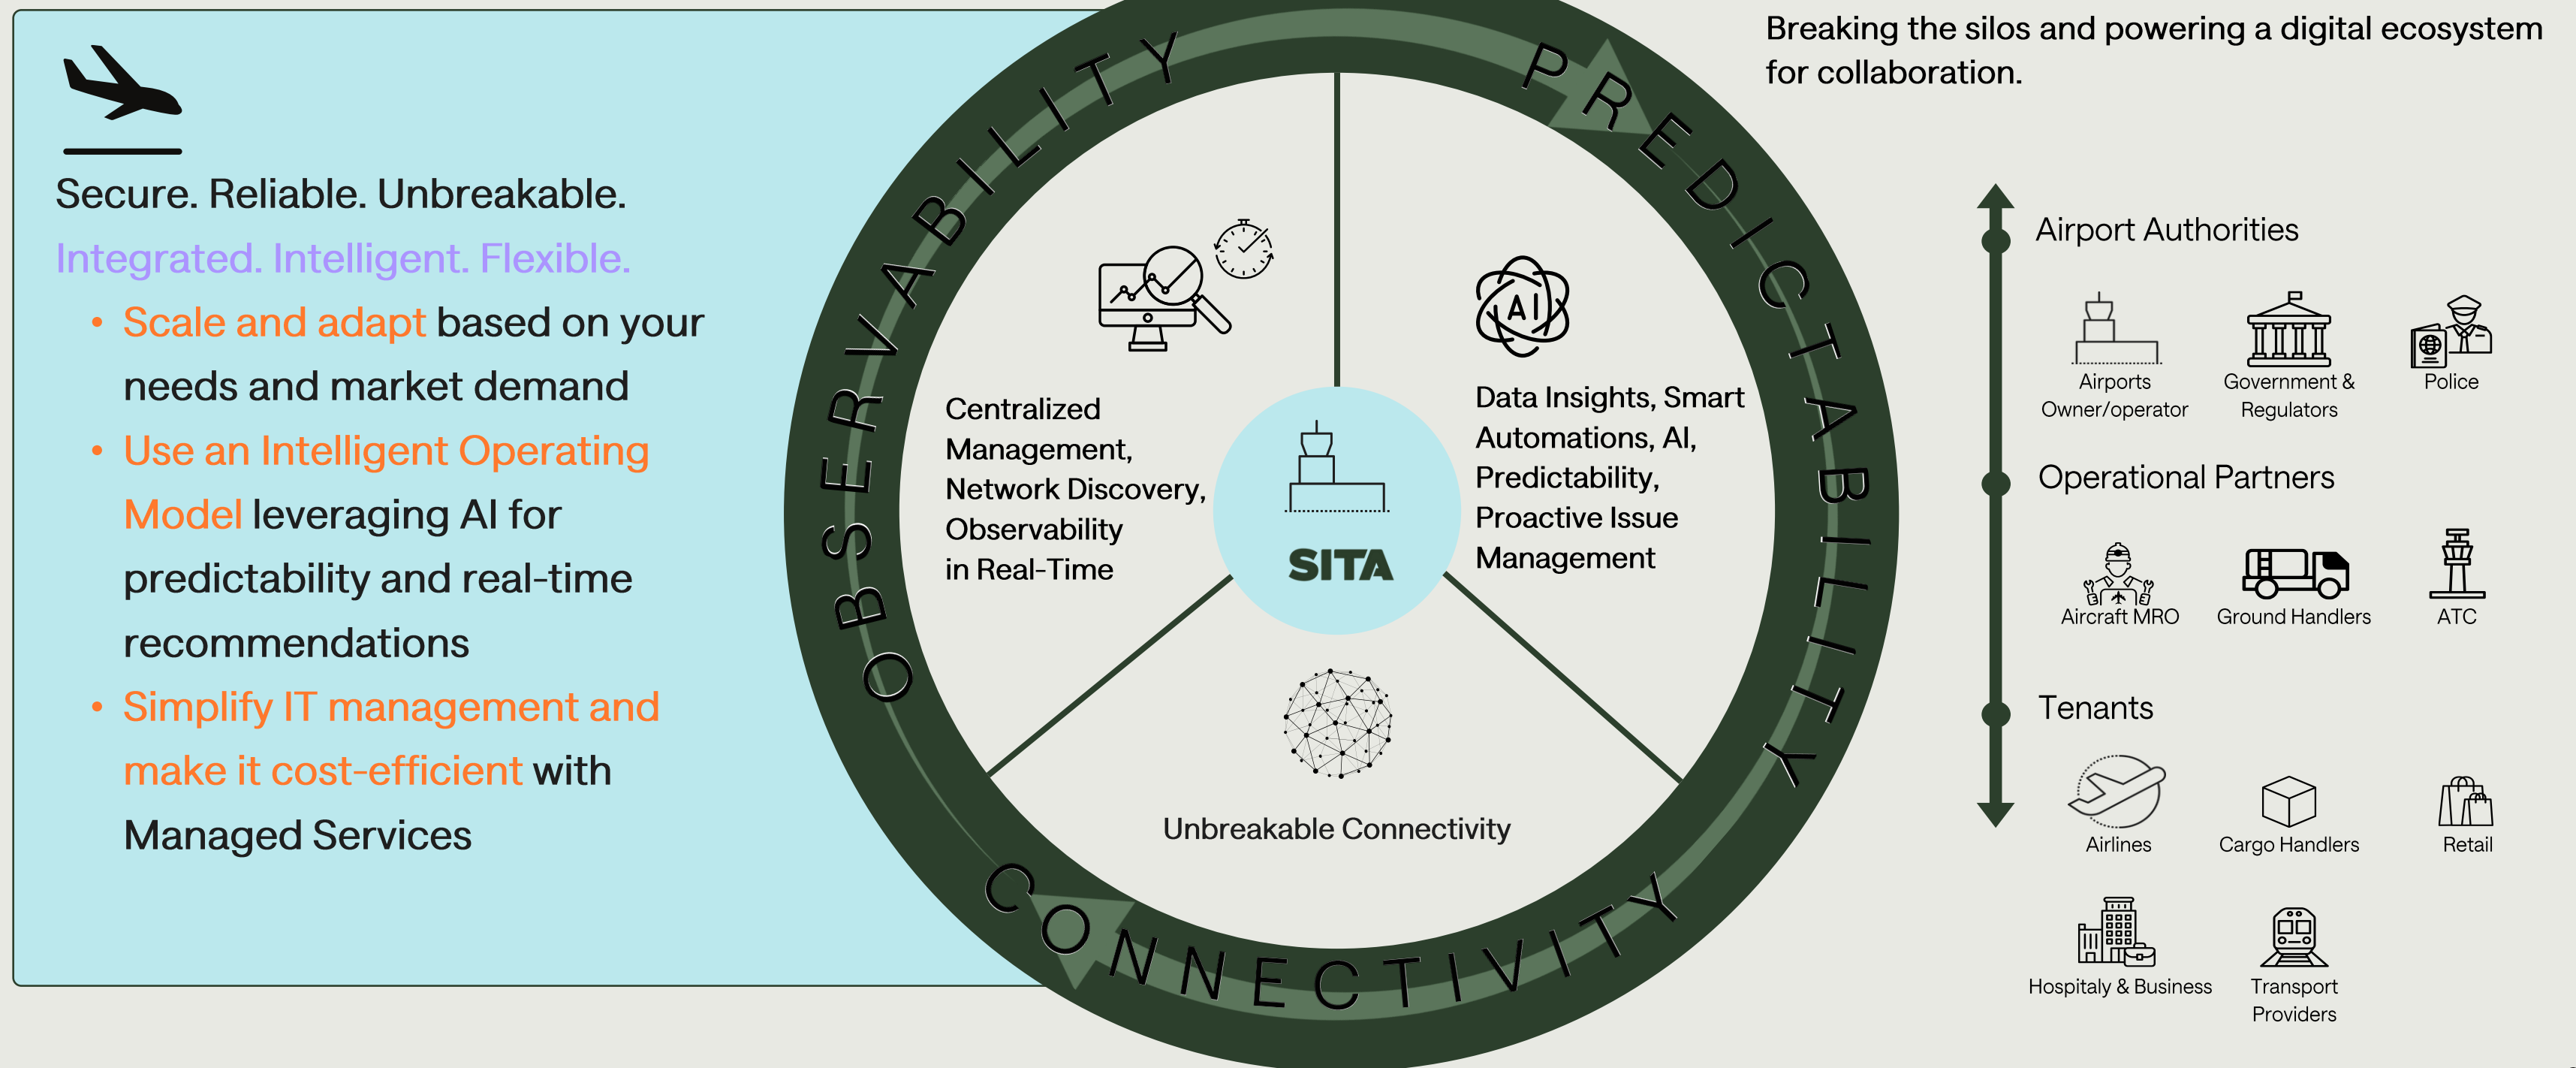

Secure. Collaborative. Unbreakable.

- Ensure **secure and stable network connectivity**
- Get **future-proof technology and constant innovation**
- **Enable your workforce and passengers** with seamless experiences and operations

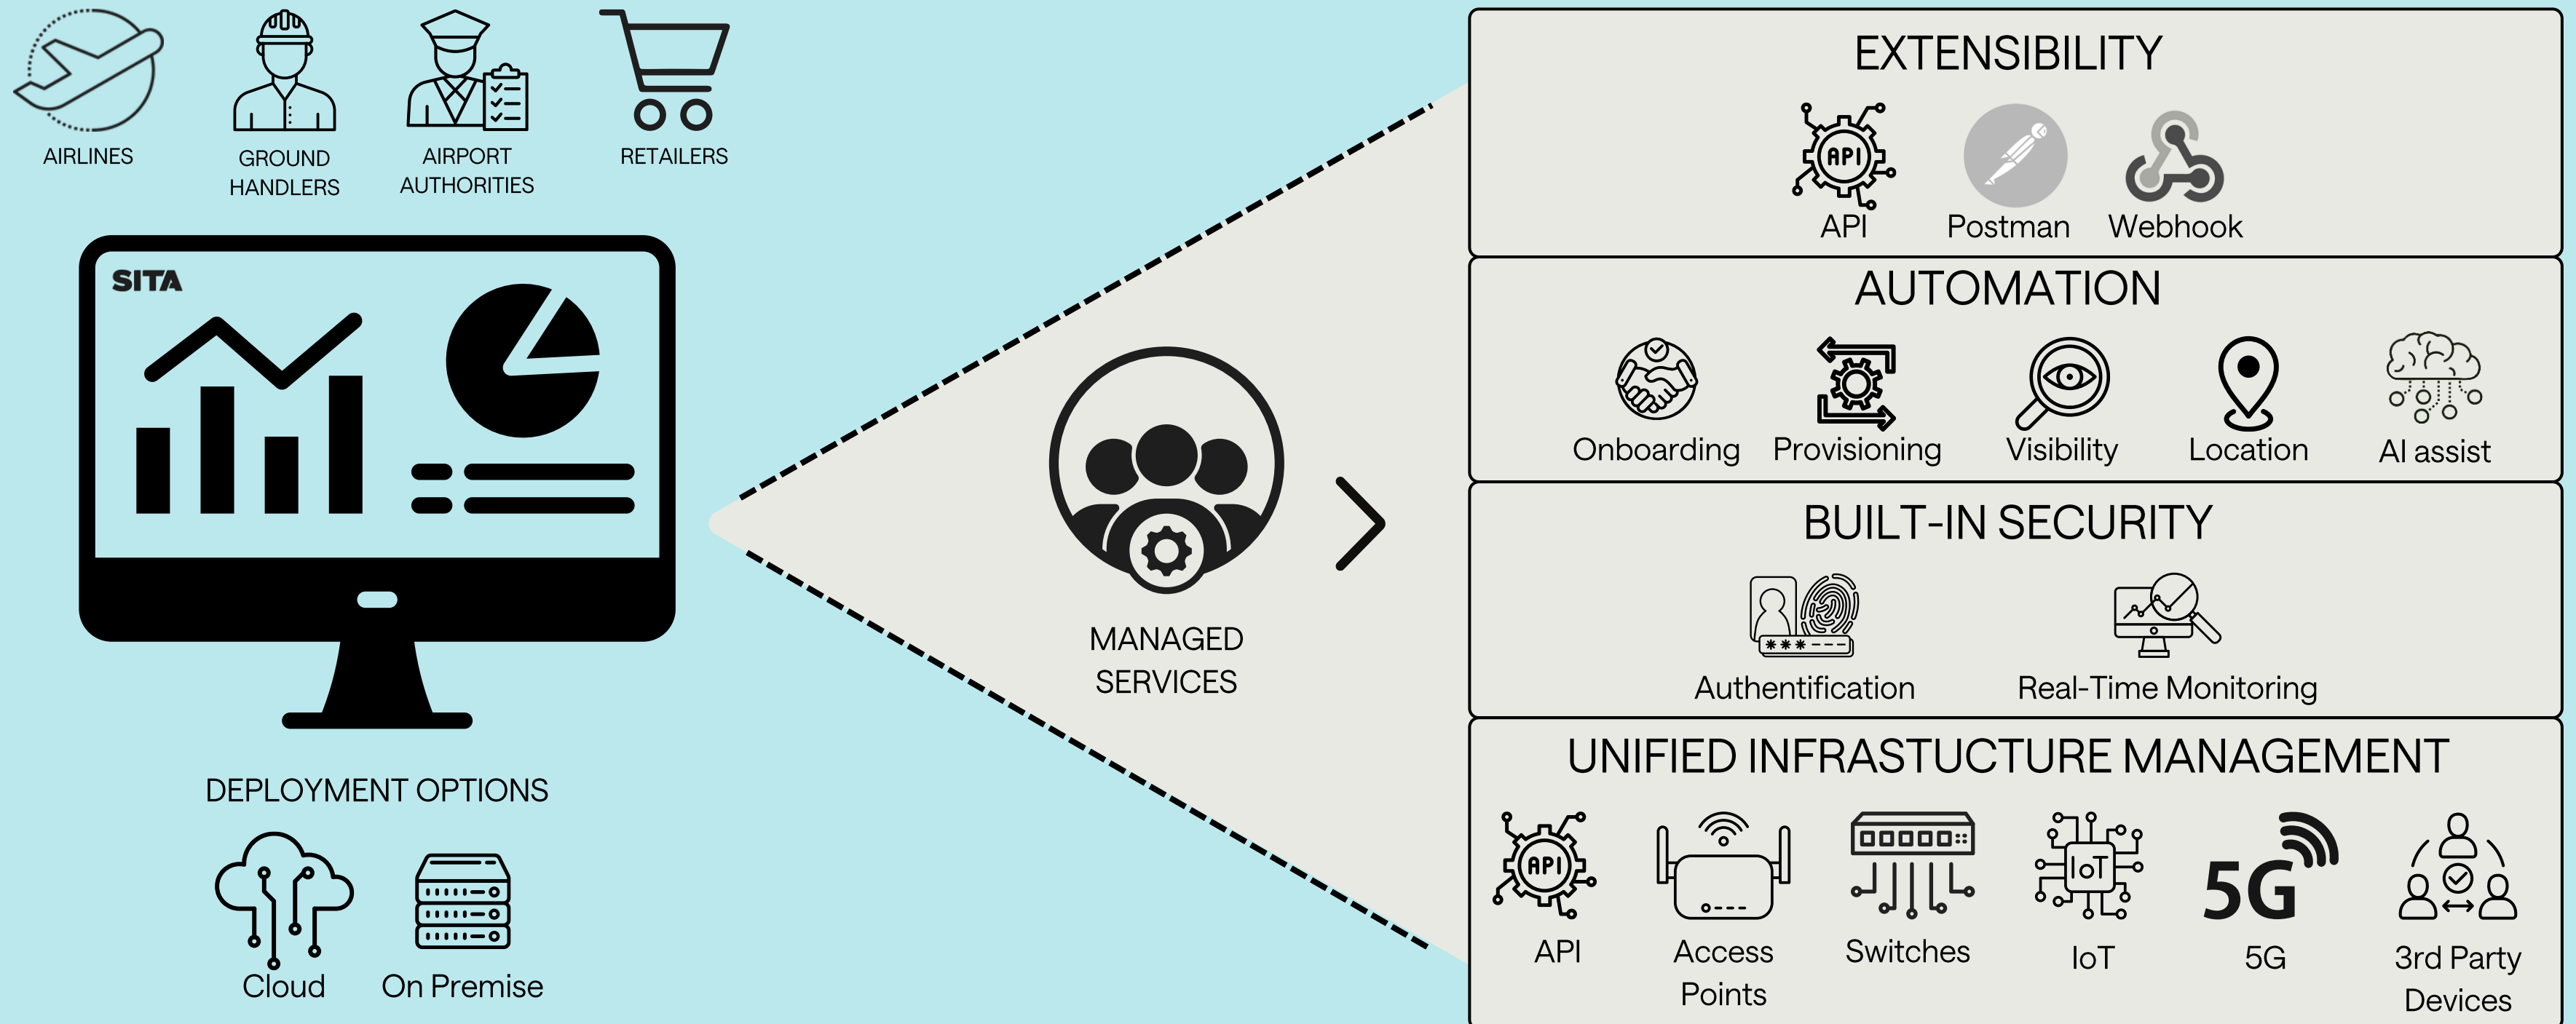

Land Tomorrow with the SITA Connected Airport Platform

Our Vision for the Connected Airport

Integrated, Future Proof, Multi-Vendor Network and Connectivity Management.

Use Case I Enhanced Observability Across your Entire Connected Infrastructures

Improved Operational Efficiency, Increased SLAs, Better Resource Allocation, Improved Customer Experience

- CONTROL BOARD
- Site Airport X CZ
- Terminal 2
- Arrivals floor

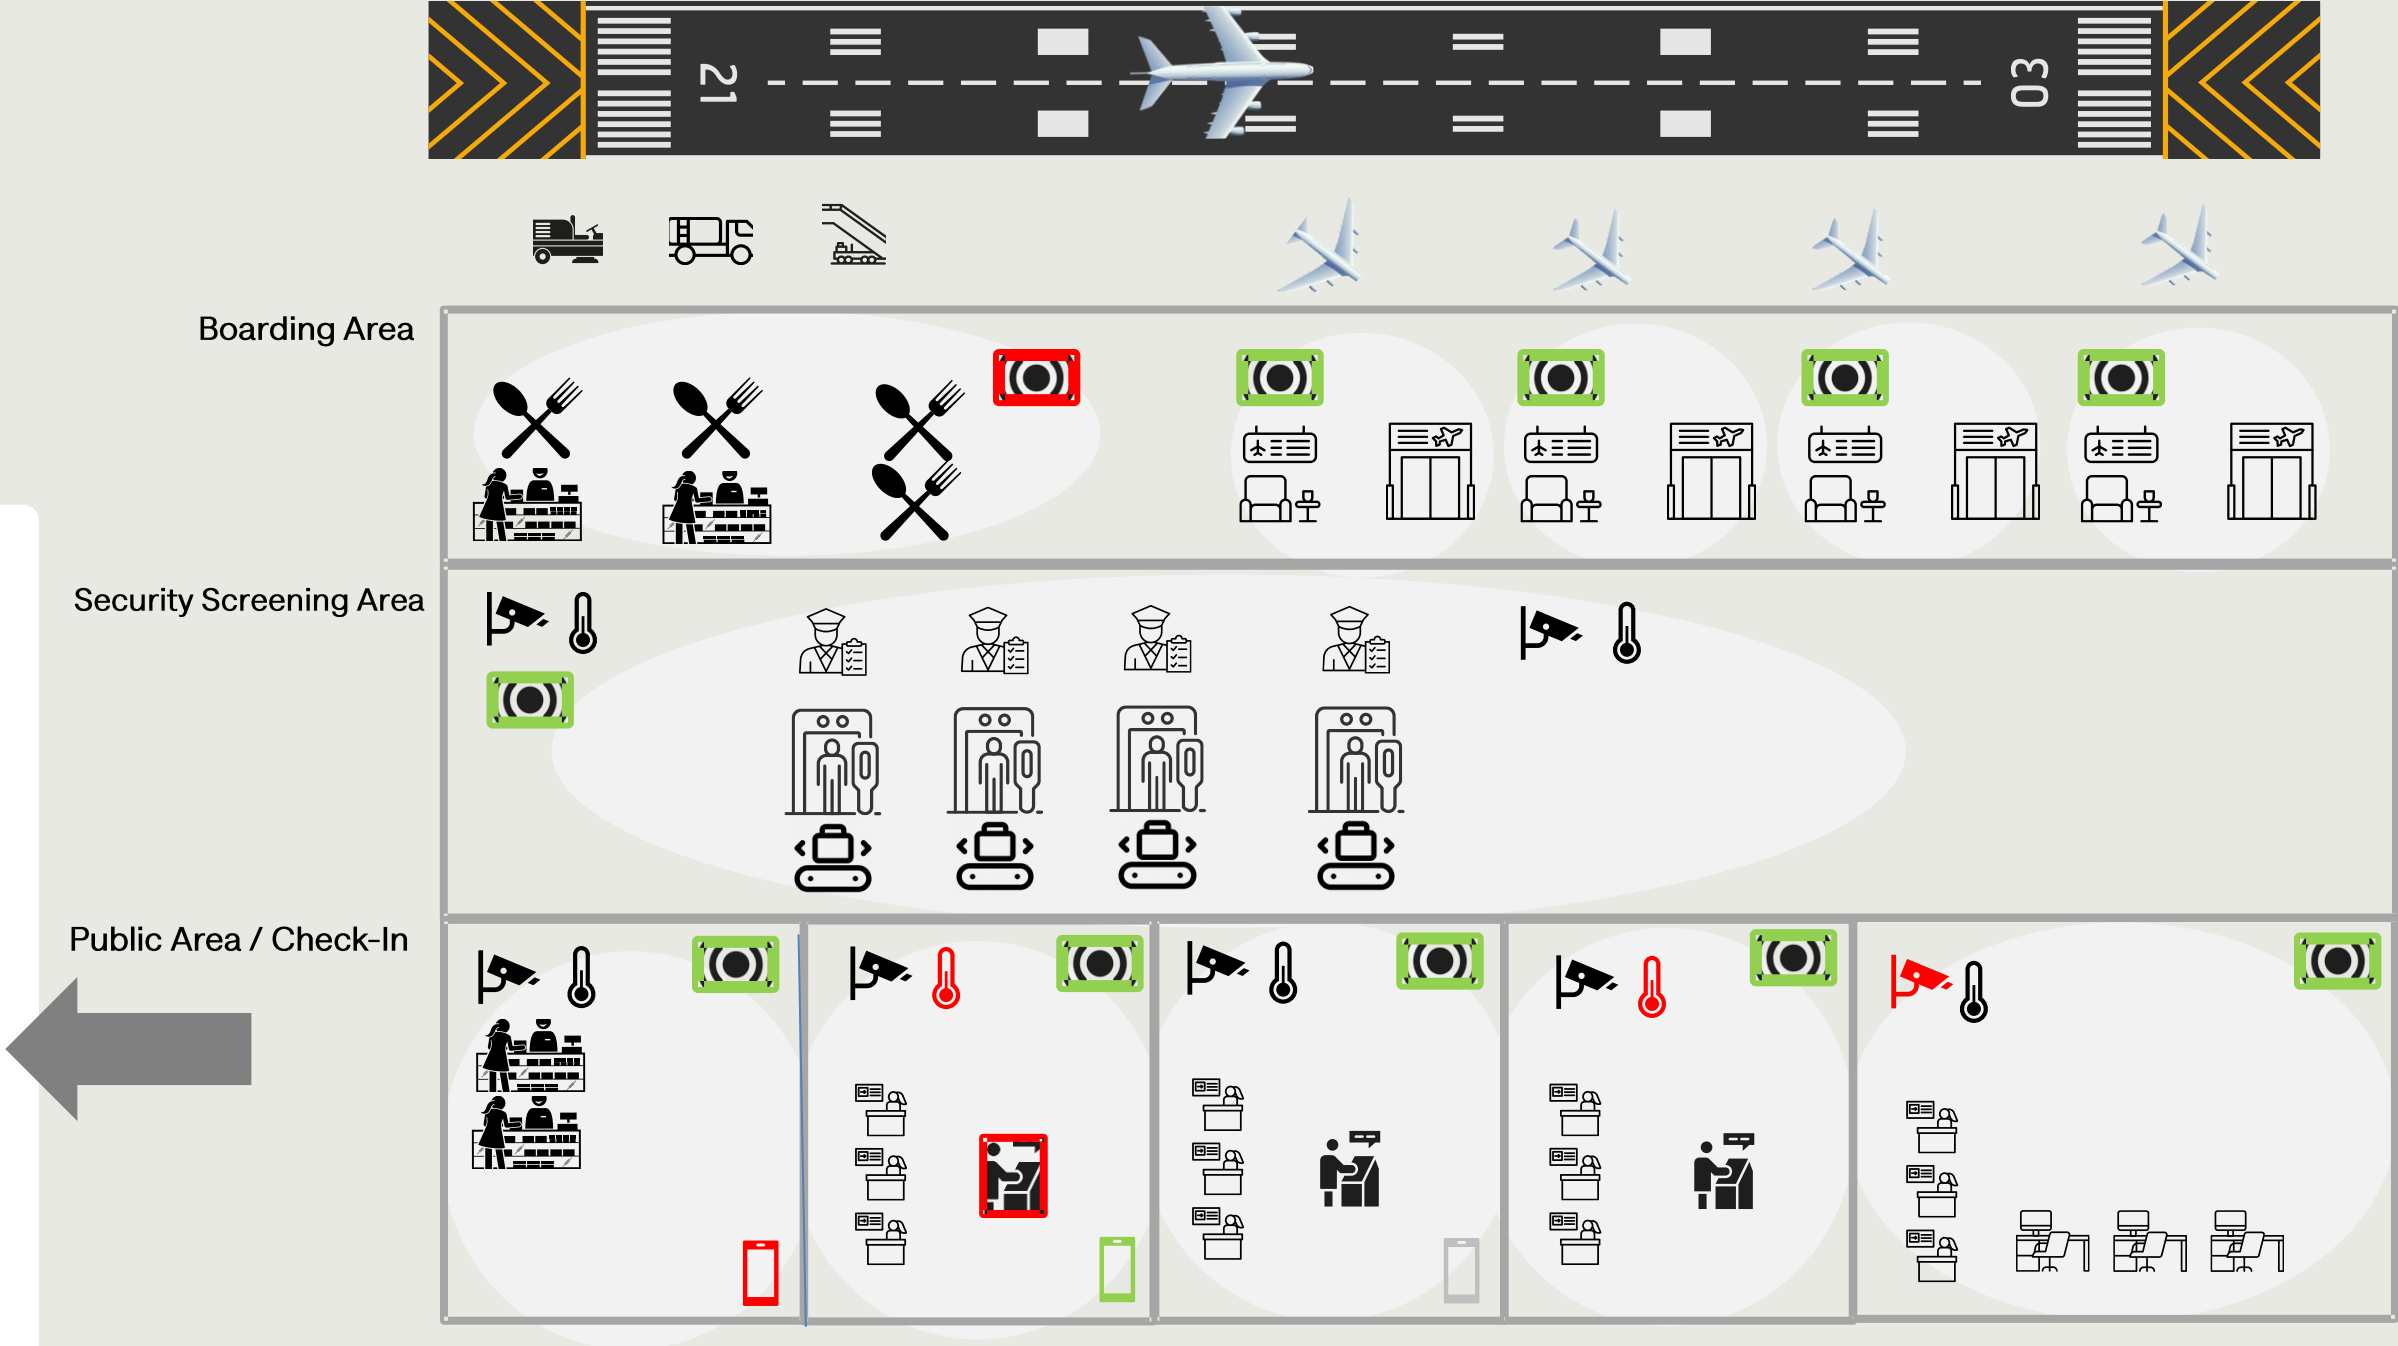

Public Area / Check-In

Clients Inventory

◦Self-Service Kiosks	20	2	 SS Kiosk FT3106, SS Kiosk FT3110
◦Digital Screens	47		
◦Check-in Desks	17		
◦Video Cameras	20	2	
◦IoT Temp sensors	30	5	
◦IoT Light sensors	37		
◦Ext customer devices	20	1	

Device Inventory

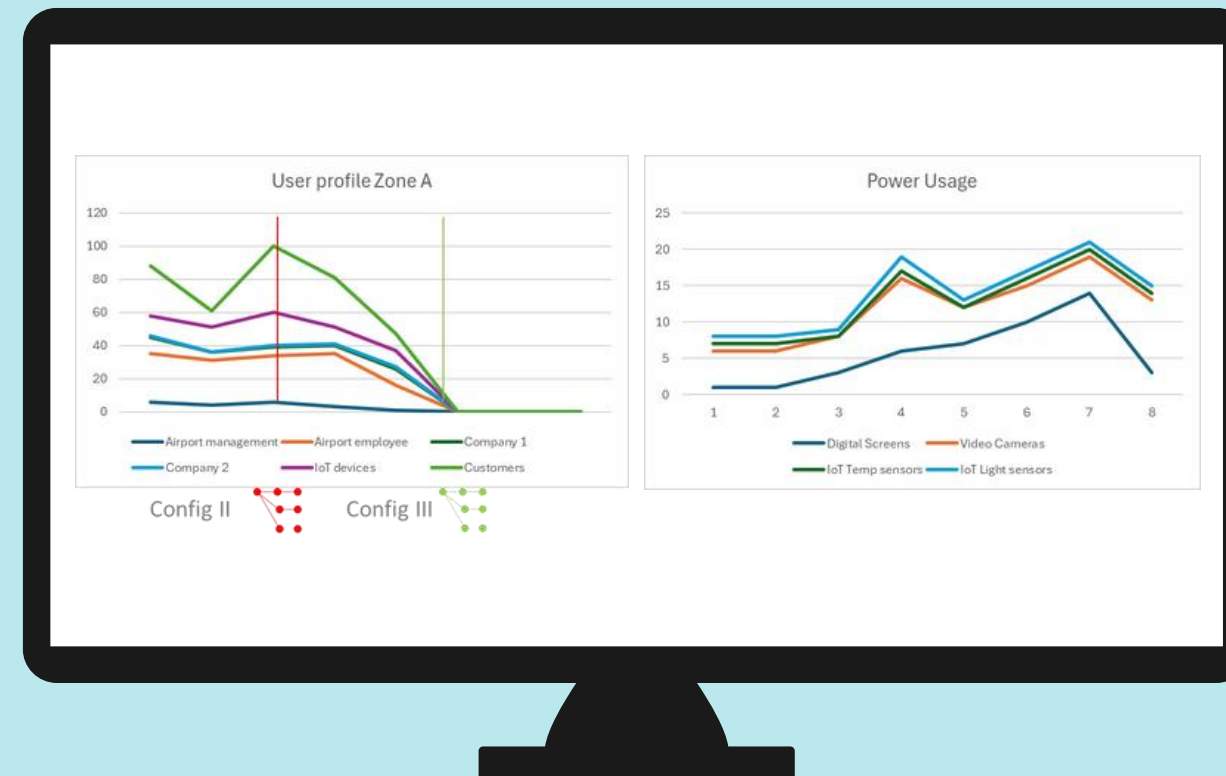

◦Access Points	10	1	Access Point X36aM
◦Switches	6		

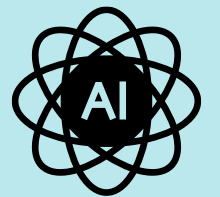

Use Case I AI Powered IT Asset Management & Recommendations

Faster and Better IT Decisions, Asset Efficiency and Uptime, Leading to More Seamless Operations & Customer Experiences

 **Accelerate performance and enhance profiling and configuration** with real time AI-powered recommendations

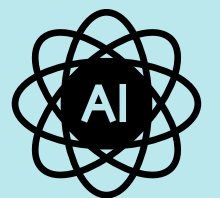

- **Set automated preconfigured connectivity profiles** to enhance performance
- **Optimize access point power settings** to reduce energy consumption by up to 15% compared with similar

 **Save time with Gen AI-powered root cause analysis and recommendations**—at site level or across the entire airport network.

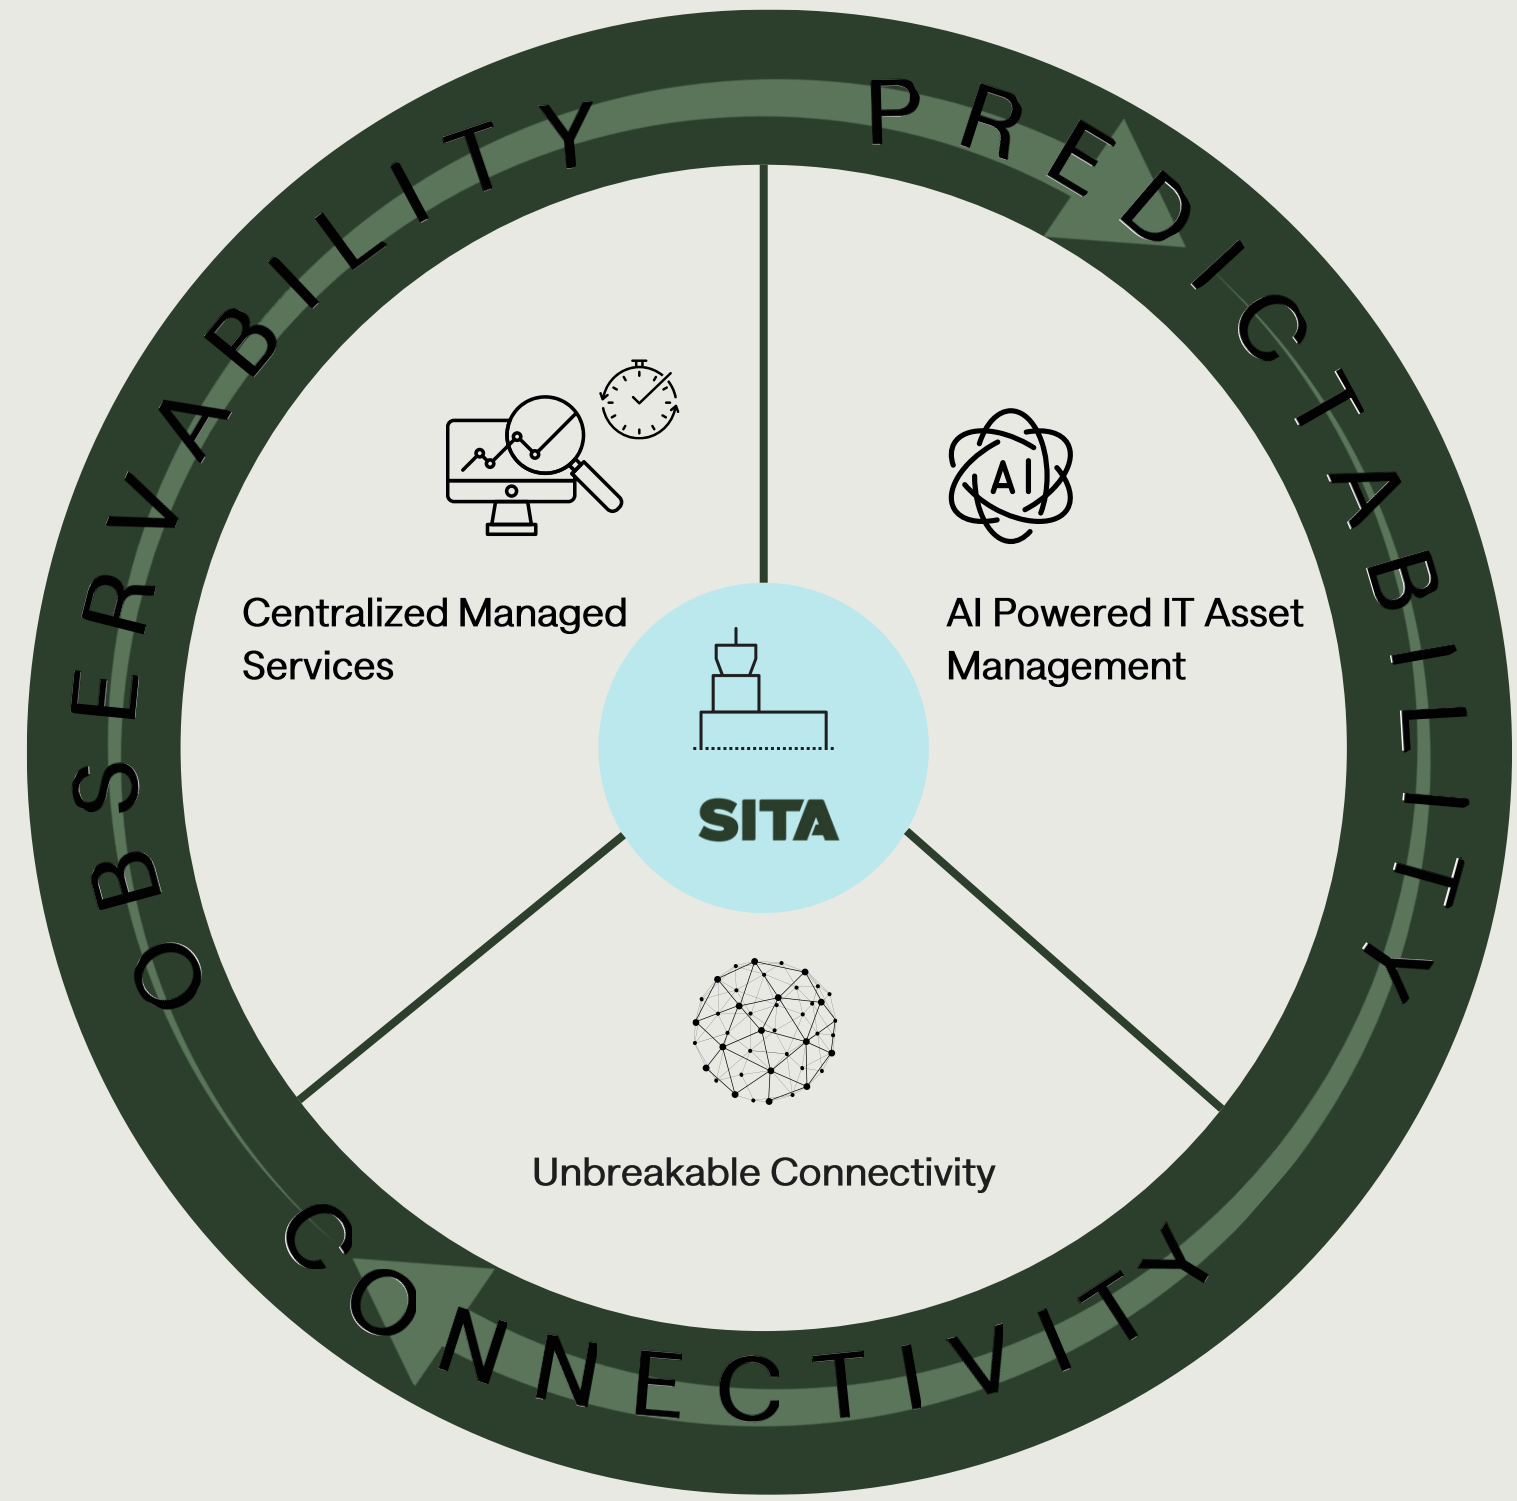

- **Event:** Client onboarding association failure
- **Root:** failed due to SSID max limit
- **Recommendation:** update AP MX CT SSID + Steps

Co-create with us to build the airport communications platform of the future

Building together today for a bright tomorrow !

Integrated Multi-Vendor Platform
Future proof IT Asset investment
Optimal customer experience

Thank You

We look forward to working with you
