SITA Maestro DCS
Scalable departure control system
for every operation

A modern DCS for every environment

SITA Maestro DCS is a fully automated, cost-effective departure control solution that adapts to any environment — from small regional terminals to major hubs. It offers a seamless experience, with both cloud-based and on-premises deployments, enabling flexible operations and scalability across airport networks.

One platform, endless possibilities.

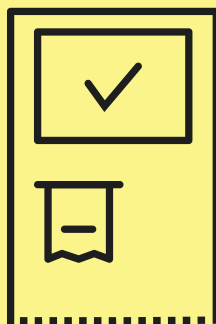

Streamlined passenger handling, everywhere

Whether deployed on-site or via the cloud, SITA Maestro DCS delivers agile and responsive check-in and boarding. It empowers staff and enhances the passenger journey:

- Fast deployment and scalability across multiple locations
- Self-service check-in modules: web, kiosk, and bag drop
- Improved compliance with global government regulations
- Enhanced mobility for agents and passengers alike
- Cost-effective for smaller operations and remote terminals

One-stop DCS for airports, airlines, and ground handlers.

Built for flexibility and integration

SITA Maestro DCS is designed to seamlessly integrate into your existing infrastructure or as part of SITA's wider Flex ecosystem.

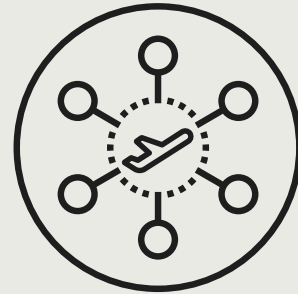

Cloud or On-Premises:

Choose what fits your operations best

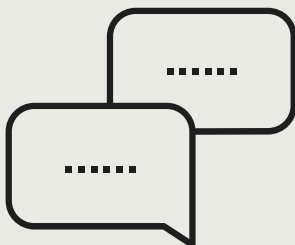

Remote-Ready:

Works in hotels, train stations, and cruise terminals

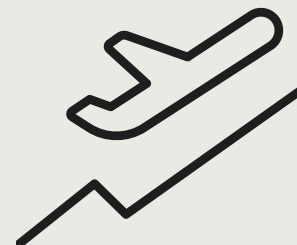

Government Compliance:

Automates regulated messaging

API-enabled & Scalable:

Built for evolving airline needs

Drive efficiency across the airport

With SITA Maestro DCS, customers gain flexibility, cost savings, and the ability to scale their operations without heavy infrastructure investment.

- Simplified operations with quick turnkey implementation
- Full support and service included – no hidden costs
- Compatible with SITA Flex platform
- Supports small (5+ workstations) to large (100+) installations
- Works as a reliable fallback DCS

Fully managed, fully supported, globally deployed.

Elevate your passenger journey

SITA Maestro DCS helps airports and airlines deliver efficient, seamless, and modern check-in and boarding. It's perfect for those transitioning from manual systems or seeking a trusted backup solution.

Fast. Reliable. Compliant.

Trusted globally at over
80+ airports

Designed to grow with
your operation

Easy integration with
**SITA Smart Path Kiosks,
Bag Manager & more**
