EWAS PILOT VERSION 3.3.0

New Features

We are pleased to announce the release 3.3.0 of eWAS Pilot with the following new features that further optimizes airline operations. In addition, the UX has now been enhanced with the UI more aligned to the iOS platform, including a Light/Dark map option which automatically switches with the device's theme, increasing visibility in the cockpit at night.

WHAT'S NEW?

- 1. Connectivity refresh profiles and ACARS updates compatibility
- Weather updates can now be done with minimum data consumption via IP or ACARS through AI

2. Airports Circles tool

 Allows drawing with a single tap, based on distance or a speed / time combination

3. Additional functionality for tools

 All the tools like Effective Wind, Equitime Point and the "Spider" can now be combined to improve productivity
