WHAT IS SITA SAFETY CUBE?

An intuitive cloud solution to **improve safety** and compliance management efficiently by supporting **data-driven decision-making**.

What can Sita Safety Cube **Do For You?**

Developed by aviation safety experts, our technology help on solving the most challenging safety management activities, such as:

Describing the operational system strategic risks

Tracking Safety Controls Effectiveness

Making timely interventions to keep **RISK ALARP**

SITA Safety Cube relies on the **Bow Tie methodology** to describe risk components and **identify weak or non-effective safety controls**. Our risk management approach **enables dynamic risk monitoring** and efficient risk mitigation.

MAIN BENEFITS

KEY FEATURES

- 1 Easy safety data collection process by providing a reporting platform from a web browser or mobile app.
- 2 State-of-the-art approach for managing safety risk, using bowtie risk methodology.
- 3 Versatility to adapt any reporting forms, incident investigation models, and taxonomies.
- 4 Integrability with crew management, operations control, FDM, and document management solutions

WHO IS USING SITA SAFETY CUBE?

Risk Management is the main pillar of our Aviation Safety Management System. To support our “Speak-up” Culture, we needed a way to manage our Hazard Reports and Risks in the different areas of our activities. Safety Cube was a complete solution to achieve this goal and implement it through our whole organization.

Matthias Klein,
Head of Aviation Safety Management at Airbus Helicopters

SITA AT A GLANCE Easy air travel Every step of the way.

- Through information and communications technology, we help to make the end-to end journey easier and safer for passengers – from pre-travel, check-in and baggage processing, to boarding, border control and inflight connectivity.
- We work with over 400 air transport industry members and 2,500 customers in over 200 countries and territories. Almost every airline and airport in the world does business with SITA, and nearly every passenger trip relies on SITA technology.
- Our customers include airlines, airports, ground handlers, aircraft, air navigation service providers, and governments.
- Our solutions drive operational efficiencies at more than 1,000 airports, while delivering the promise of the connected aircraft to customers of 18,000 aircraft globally.
- We help more than 70 governments to strike the balance between secure borders and seamless travel.
- Created and owned 100% by air transport, SITA is the community's dedicated partner for IT and communications, uniquely able to respond to community needs and issues.
- We innovate and develop collaboratively with our air transport customers, industry bodies and partners. Our portfolio and strategic direction are driven by the community, through the SITA Board and Council, comprising air transport industry members the world over.
- We provide services over the world's most extensive communications network. It's the vital asset that keeps the global air transport industry connected in every corner of the globe and bridging 60% of the air transport community's data exchange.
- With a customer service team of over 1,700 people around the world, we invest significantly in achieving best-in-class customer service, providing 24/7 integrated local and global support for our services.
- Our annual Air Transport and Passenger IT Insights reports for airlines, airports and passengers are industry-renowned, as is our Baggage IT Insights report.
- We are a certified Carbon Neutral® company, reducing greenhouse gas emissions for all our operations through our UN recognized Planet+ program. In 2022, we committed to setting science-based emission reduction targets aligned to the Science Based Target initiative Net-Zero Standard.
- We also develop solutions to help the aviation industry meet its carbon reduction objectives, including reduced fuel burn and greater operational efficiencies.
