A FLYING START

SITA AirportVision Evolved

HELPING
YOU REACH
NEW HEIGHTS

SITA

Improve your communications, improve your passenger experience.

SITA AirportVision Evolved (APVe) is an innovative flight information display system that delivers critical information in clear, easy formats.

APVe enhances your passenger experience with dynamic visual and messaging capabilities. It's designed to help you to get the most out of your facilities. Through real-time updates and attractive displays, you can keep passengers informed, relaxed, and in control throughout their journey.

We have more than 75 years' experience in the industry. We understand your needs and challenges. SITA APVe is an easy to configure system that can be deployed in under one week.

We're ready for take-off when you are.

What can SITA APVe do for you?

Improve your passenger experience

You can enhance your passengers' confidence with clear displays and updates. APVe reduces uncertainty and ensures smooth, predictable journeys. It's peace of mind for you and your customer.

Maximise your non-aeronautical revenue

By improving passenger flow, you increase dwell time and the potential to generate revenue. APVe's media capabilities also provides an opportunity for revenue through targeted advertising.

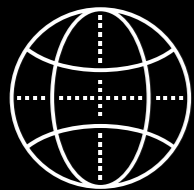

Boost your brand image

You'll appear more credible by communicating consistently and accurately across all digital channels. Our dynamic displays enrich your airport's look and feel. So, you can leave a lasting impression on your passengers.

Evolved to your needs

APVe is built on the legacy of SITA's AirportVision: the industry's most flexible and customisable information display system. Based on our years in the business, we've evolved APVe into a feature-rich system that expands to your needs.

99.9%

system availability across 100+ deployments of APV (Legacy) and APVe combined worldwide.

Versatile data management

You can manage flight schedules and day-of operations from any browser-based workstation or tablet. We make it flexible, so you can be as mobile as you need.

Flexible integration

You can easily integrate APVe with your existing third-party IT systems. APVe makes it easy for you by putting all your communication in one place. You'll find passenger messages, operational notifications, and emergency alerts in our single system.

Effortless design and display management

Our user-friendly interface ensures that all your staff can modify display layouts, no matter their skill-level. And it's easy to customise. Just choose one of our beautifully themed templates and simply add your branding.

Innovative push architecture

We push, we don't pull. APVe minimises unnecessary data transfer to optimise your network efficiency and keep your operational costs down.

Inherent high-availability system design

Complex hardware can impact your system uptime and cost you money. APVe ensures optimum uptime, reliability and automatic updates through redundancy, caching and **Continuous Integration and Continuous Deployment (CI/CD)** methodologies.

Meeting you where you are

SITA products are designed with airports in mind. But every airport is different.

APVe is scalable to accommodate your infrastructure and budget. Available on the cloud, APVe removes the hassle of maintaining and updating your system on-prem.

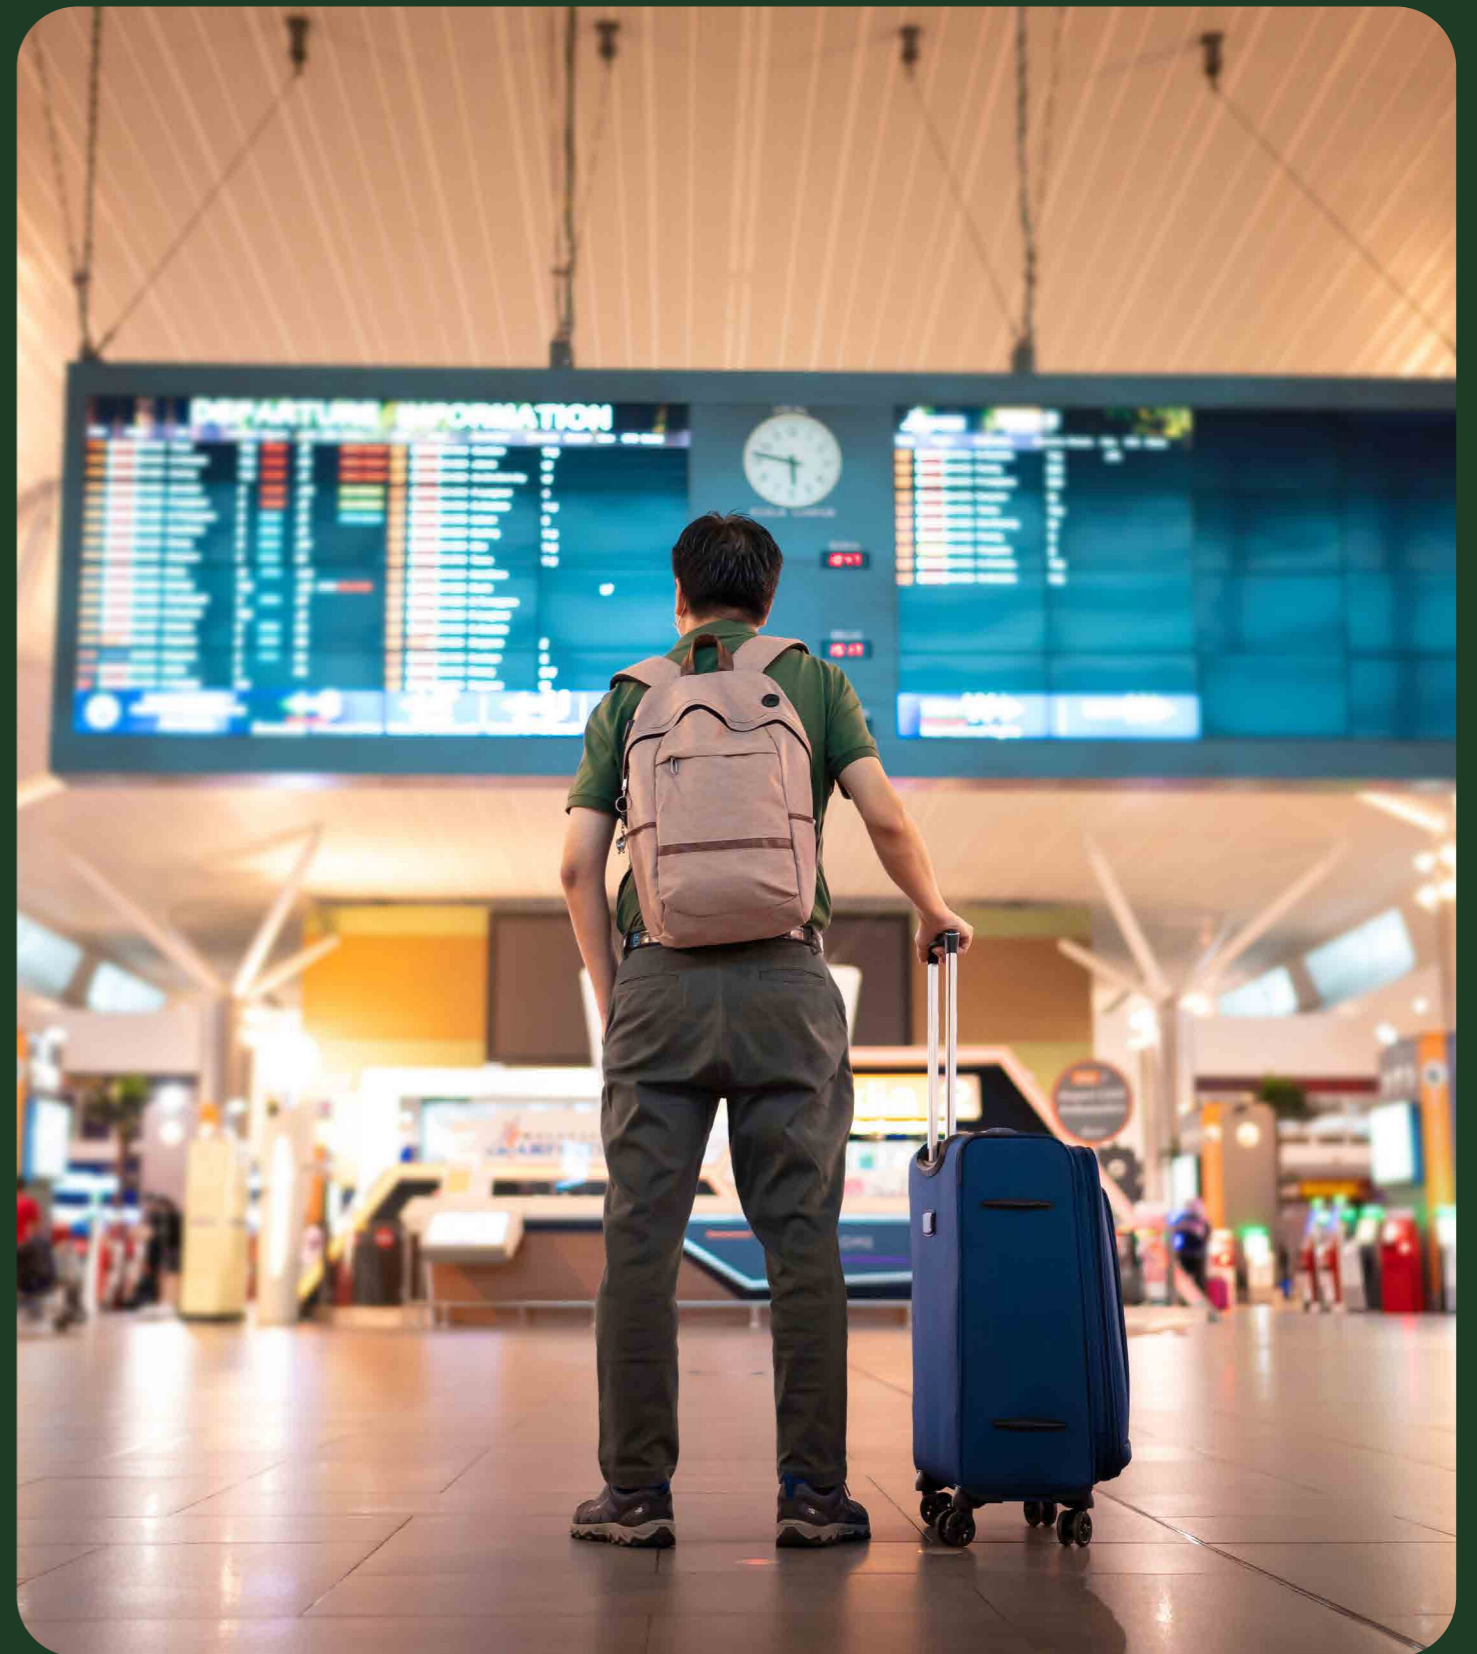

We offer a range of add-ons, that you can select at any time. Our modular, versatile approach allows you to invest your time, money, and resources into fulfilling your wider business goals.

No matter what you choose, we make sure your transition to APVe is effortless.

EXPANDING YOUR FIELD OF VIEW

Display Device Control (DDC)

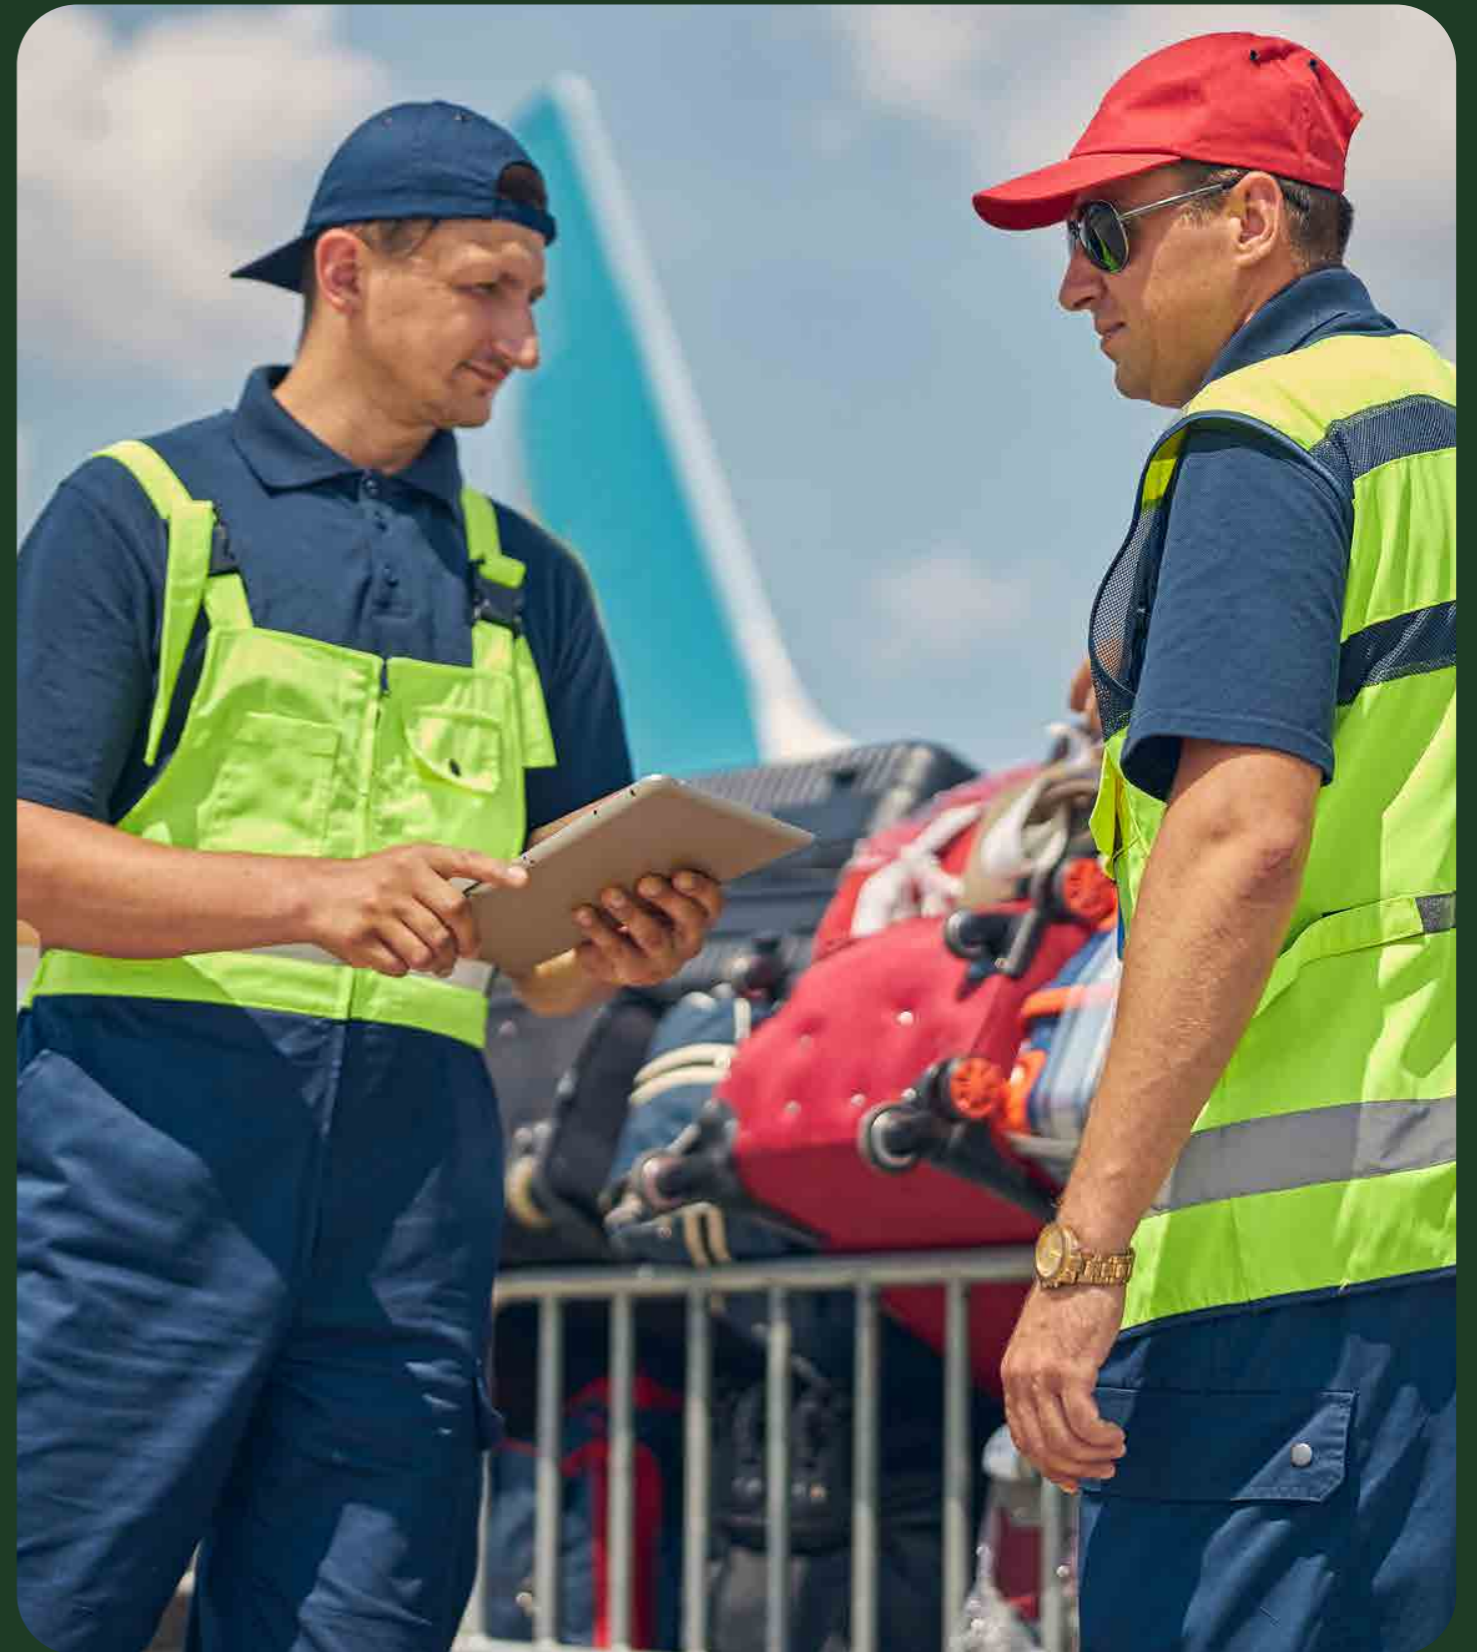

Complete design flexibility

Are design capability and display compatibility important to your airport? You get versatility built-in with our Display Device Control (DDC) free Technology. Upgrading to DDC means you can display content on a huge range of displays: large format LED walls, banner back walls at check-in, or smaller displays over boarding doors.

DDC gives you complete design flexibility. You can seamlessly integrate media in ways you never thought possible. DDC helps you stand-out, making your airport experience one to remember.

LIGHTENING THE LOAD

SITA Tugman Baggage Input Console

15 - 45

Average time in minutes after arrival before bags reach the baggage carousel*

92%

Global passenger traffic forecast to reach 92% of 2019 levels in 2023**

\$7.44

Average non-aeronautical revenue (USD) per passenger in 2021 – 18% of airport total

*Airport Council International 2021 Airport Economics Report

** ACI World 2023 Airport Key Performance Indicators

The future of baggage handling

We've developed clear, controlled baggage management to streamline your operations and improve your passenger experience.

Tugman Baggage Input Console promises real-time bag statuses for your passengers and your baggage handlers. So, you can reduce stress across the board. Say goodbye to baggage claim congestion and give your customers more time to shop, dine and explore your facilities.

SITA

Your world-leading partner

Smoother air travel every step of the way.

- We provide services over the world's most extensive communications network. It's the vital asset that keeps the global air transport industry connected.
- Our customers include airlines, airports, GDSs and governments.
- We work with around 400 air transport industry members and 2,800 customers in over 200 countries and territories. Almost every airline and airport in the world does business with SITA.
- Through information and communications technology, SITA helps to make end-to-end journeys easier for passengers – from pre-travel, check-in and baggage processing, to boarding, border control and inflight connectivity.
- With a customer service team of over 2,000 people around the world, we invest significantly in achieving best-in-class customer service, providing 24/7 integrated local and global support for our services.
- Created and owned 100% by the industry, SITA is the community's dedicated partner for IT and communications, uniquely able to respond to community needs and issues.
- Our annual Air Transport and Passenger. IT Insights reports for airlines, airports and passengers are industry-renowned, as is our Baggage IT Insights report.
