

**SITA**

# A CLEAR PATH FORWARD

**SITA CUSS 2**

**YOUR STEADY  
ROUTE TO THE  
NEW STANDARD.**

**SITA CUSS 2 is built for the reality of passenger processing today:** bag drop, mobile and self-service, contactless journeys, new devices, new experiences. It brings modern web technologies, stronger security expectations, broader device support, and shorter release cycles – creating a standard that’s easier to evolve, easier to maintain, and ready for long-term change.

# What does SITA CUSS 2 do for you?

## GIVES YOU FLEXIBILITY ACROSS DEVICES .

From kiosks to tablets and mobile, CUSS 2 supports broader device types – so you're not boxed in by legacy constraints.

## KEEPS JOURNEYS CONSISTENT AS COMMON USE EXPANDS .

Common Use now stretches far beyond check-in. SITA CUSS 2 helps you support more touchpoints and keep the experience coherent – even as operational demands shift.

## BUILDS IN MODERN SECURITY EXPECTATIONS .

CUSS 2 is designed for stronger protection from the start – supporting today's payment, privacy, and cybersecurity needs without bolting on workarounds later.

## MAKES CHANGE EASIER, FASTER, AND MORE EFFICIENT .

With modern web technologies and shorter release cycles, CUSS 2 supports faster iteration, smoother maintenance, and less effort as adoption scales.

## World-leading Common Use expertise.

Plenty will talk about CUSS 2 readiness. Only SITA has the Common Use scale to make the move clear, steady, and future-ready.

With a footprint across 400+ airports, we're committed to delivering CUSS 2 without unnecessary disruption or duplication. That means clearer planning, clearer stakeholder alignment, and a controlled route forward shaped around live airport operations – so you can make the move with confidence.
