

# Global Mobile Connectivity

Powered by the world's largest Wi-Fi network

The iPass SmartConnect™ Wi-Fi Service delivers simple, secure, always-on Wi-Fi access on any mobile device. Backed by our intelligent, self-learning platform, iPass SmartConnect can make intelligent connection decisions, invisibly and securely connecting your customers and employees to the best Wi-Fi hotspot for their needs on any Wi-Fi enabled device.

✓ **Unlimited Wi-Fi access**

Keep your users connected with unlimited data on unlimited devices.

✓ **Convenient to use**

iPass makes it easy for your users. There is no need to look for a free hotspot or enter personal information in order to connect.

✓ **Private and secure**

We keep user credentials secure with SSL encryption and support the use of VPNs (Virtual Private Networks).

✓ **Global Wi-Fi Footprint**

iPass has created the world's largest Wi-Fi network, with more than 60 million hotspots in more than 120 countries, at airports, hotels, train stations, convention centers, outdoor venues, inflight, and more.

✓ **Identifies the best hotspots**

The iPass SmartConnect platform uses advanced analytics to identify and grade access points based on factors such as signal strength, speed, bandwidth availability and connection success rate.

✓ **Automatically connects users to the best hotspot for their needs**

iPass SmartConnect's self-learning algorithm continuously improves its knowledge of global Wi-Fi networks, selecting the optimal Wi-Fi network in real time. Once a user connects to iPass SmartConnect, they will stay connected to the best Wi-Fi networks as they roam.

✓ **Get inflight access**

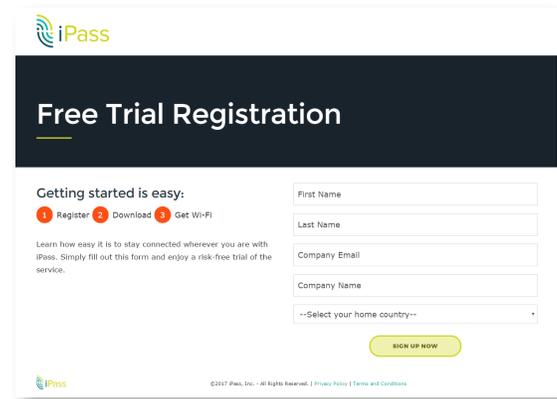

Inflight Wi-Fi on more than 20 leading carriers, including United, American & Delta, as well as all Gogo-enabled aircraft.

## Getting your free trial is incredibly easy

### ✓ Fill out form

To begin your free trial, simply fill out the form at <https://www.ipass.com/atis2017>

You will then see a thank you page and receive a welcome email from iPass.

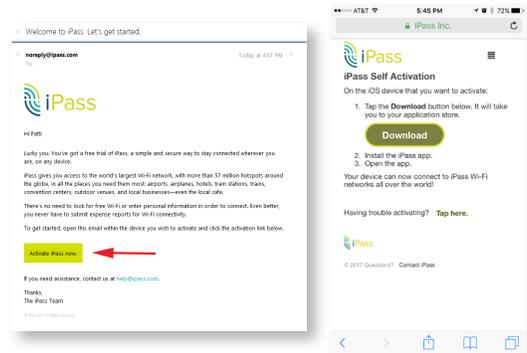

The registration form includes the iPass logo, a title 'Free Trial Registration', and a progress indicator with three steps: 1. Register, 2. Download, and 3. Get Wi-Fi. Below the indicator is a short introductory paragraph. The form fields include: First Name, Last Name, Company Email, Company Name, and a dropdown menu for home country. A 'SIGN UP NOW' button is at the bottom right. Footer text includes '©2017 iPass, Inc. - All Rights Reserved. | Privacy Policy | Terms and Conditions'.

### ✓ Click the link in your welcome email

Make sure to open the email on the device you wish to enable.

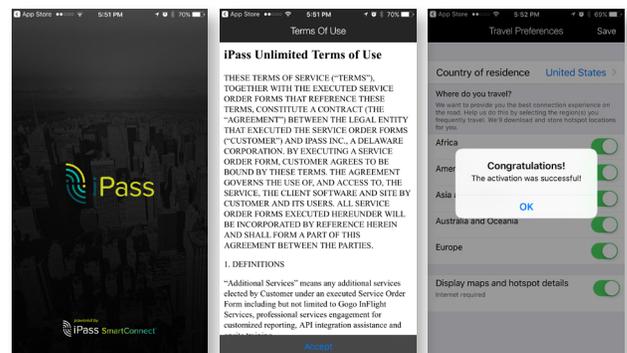

When you click the “Activate iPass now” link, it will take you to the download page where you will find the link to the appropriate App Store for your device. There you click “Download” to get the app.

### ✓ Follow the steps in the app

After the app finishes downloading, simply allow the app to install, answering the prompts when you see them. Click the “Accept” button on the Terms of Use and the app will do the rest.

Once installation is successful, you will be asked your travel preferences (this is for off-line map capability), and then taken to the app home screen.

## About iPass

iPass is a leading provider of global mobile connectivity, offering simple, secure, always-on Wi-Fi access on any mobile device. Built on a software-as-a-service (SaaS) platform, the iPass cloud-based service keeps its customers connected by providing unlimited Wi-Fi connectivity on unlimited devices. iPass is the world's largest Wi-Fi network, with more than 60

million hotspots in more than 120 countries, at airports, hotels, train stations, convention centers, outdoor venues, inflight, and more.
